

financial transactions”) is a useful starting point. This definition incorporates two key concepts: (1) Formality of the business relationship, and (2) regularity of dealings. In light of these concepts, FinCEN solicits comments as to whether (and to what extent) travel agencies maintain accounts for their customers. If so, what kinds of services do travel agencies provide to account holders? Are these account relationships ongoing? Are accounts established to receive recurring payments from a customer, or are additional services provided to the accountholder?

III. Conclusion

With this ANPRM, FinCEN is seeking input to assist it in determining how to implement the requirements of sections 352 and 326 of the Act with respect to travel agencies. FinCEN welcomes comments on all aspects of potential regulation and encourages all interested parties to provide their views.

IV. Executive Order 12866

Because this is an ANPRM, FinCEN does not know whether or in what form it may issue a regulation pursuant to sections 352 and 326 of the Act affecting travel agencies. Accordingly, FinCEN does not know whether potential regulations will constitute a significant regulatory action under the Executive Order. This ANPRM neither establishes nor proposes any regulatory requirements. FinCEN has submitted a notice of planned regulatory action to OMB for review. Because this ANPRM does not contain a specific proposal, information is not available with which to prepare an economic analysis. FinCEN will prepare a preliminary analysis if it proceeds with a proposed rule that constitutes a significant regulatory action.

Accordingly, FinCEN solicits comments, information, and data on the potential effects of any potential regulation. FinCEN will carefully consider the costs and benefits associated with this rulemaking.

Approval and Promulgation of Air Quality Implementation Plans; Michigan; Excess Emissions During Startup, Shutdown or Malfunction

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The EPA is proposing to approve several rule revisions for incorporation into Michigan’s State Implementation Plan (SIP). The Michigan Department of Environmental Quality (MDEQ) submitted these revisions to EPA on September 23, 2002. They include rules to address excess emissions occurring during startup, shutdown or malfunction, as well as revisions to related definitions. In the Final Rules section of this **Federal Register**, EPA is approving the state’s SIP revision, as a direct final rule without prior proposal because the Agency views this as a noncontroversial revision and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If we receive no adverse comments in response to that direct final rule, we plan to take no further action in relation to this proposed rule. If we receive significant adverse comments, in writing, which we have not addressed, we will withdraw the direct final rule and address all public comments received in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period on this document.

DATES: EPA must receive written comments on or before March 26, 2003.
